

SOVIETS HAVE SINISTER SYSTEM OF MARKETING

Montreal.—The menace of Russian wheat lies not so much in its volume, as in the sinister marketing method which the Soviet employs, said Hon. Robert Weir, Dominion Minister of Agriculture, here.

"The Russians appear to have developed a particularly sinister marketing system," the minister explained. "They take a quantity of wheat and dump it on the market all at once and give the impression of having an unlimited volume. That breaks the market and creates a panic amongst our growers. They think that there is no outlet for their wheat, whereas there is, of course, always an outlet."

The minister would not forecast how long the present Russian situation would overhang the market. He repeated, however, that it was not the volume but the marketing method of the Soviets which was the danger, which they can produce at the present time, and added that it would take but a relatively small change in the general situation to induce a substantial movement upon the part of Canadian wheat.

Hon. Mr. Weir outlined his hope of building up not only a substantial cattle trade with Britain, but also of interprovincial trade between Eastern and Western Canada in chopped feed for livestock. Both these trades, he believed, were capable of substantial development which would redress the balance of trade not only of the western farmer, but also of the Eastern Canadian dairyman.

New York.—The World today quoted Aaron Rapin, an authority on commodities and marketing, as saying he believes the Russian Soviets are planning a billion bushel crop for the coming year, which they can produce at 50 cents a bushel at Black Sea ports, as compared with the American production cost of upward of 80 cents. A great part of this crop, he thinks, can be dumped on foreign markets.

He said he had reason to believe that Russia was figuring that the United States next spring would have a surplus of at least 200,000,000 bushels which, together with the huge Russian crop, would depress prices greatly.

The short sales in his opinion, were made to make money for the all-Russian textile syndicate, which expects the price to be down as a result of the huge Russian crop, and to be able to cover at a large profit.

For Relief Of Farmers

Alberta Government Taking Steps To Ameliorate Conditions

Calgary, Alberta.—Among plans being considered by the provincial government for the relief of Alberta farmers during the coming winter, Premier J. E. Brownlee announced here, were separate conferences between the cabinet ministers and the province and representatives of implement companies, mortgage and loan companies, automobile finance corporations and the Retail Merchants' Association, which have been arranged by Attorney-General L. S. Brownlee, to take place in Edmonton.

A meeting of the bank representatives with government officials was held a few days ago, and four of the cabinet members conferred with the livestock interests of the south. "The farmer must be allowed his living this winter, and we are trying to get to the bottom of the situation and then decide what can be done. Among other things, it may be possible to bring in enough livestock to use up the surplus of grain and fodder crops this winter," the premier stated.

Deplores Alarmist Talk

Dr. Swanson Says There Is No Over Production Of Wheat

Quebec, Que.—All alarmist talk of world over-production of wheat was, in his opinion, wholly unwarranted, Dr. W. W. Swanson, of Saskatoon, head of the Department of Economics of the University of Saskatchewan, said, prior to sailing for London, England. Dr. Swanson is one of the wheat experts attending the London conference in an advisory capacity.

"Wheat is the world's basic food, there has never been any true surplus of food and there probably never will be," Dr. Swanson said. "There certainly is none at present, and a country such as Canada may safely regard its stores of wheat as the truest form of wealth, certain to be converted into money on a fair basis of price, despite temporary difficulties of marketing."

W. N. U. 1867

Manitoba's First Welfare Conference

Important Conference To Be Held In Winnipeg Early This Month

Winnipeg, Man.—Much interest is now being taken throughout the Province in the first Manitoba Conference on Social Work that is to be held at the Marlborough Hotel, Winnipeg, on the 7th, 8th and 9th of October.

This is to be a conference where everyone interested in social work or any phase of it, and including social workers, church workers, teachers, nurses, municipal officials, school trustees and board members, and those who come in contact with the different human problems of their communities will be welcome, and their part in the discussions appreciated.

Much study has been given over the past nine months to the series of topics related to Manitoba problems that should occupy a place on the program, and to the securing of the most qualified persons to lead in their presentation and discussion. Over fifty men and women of all professions in various fields, have already accepted certain responsibilities for this purpose.

Two outstanding speakers, Dr. Bernard H. McChie, of Orillia, possibly Canada's foremost authority on the training of the feeble-minded child, and Dr. Henry L. McKay of Chicago, a noted student of the problem of the delinquent, are among those on the program.

The problem of the underprivileged or wayward child, the destitute or broken up family, the mental defective, the delinquent, in their various aspects, as well as such general topics as "Health" and "Unemployment" are all listed for discussion.

The financial burden placed on provincial and municipal funds, as well as the calls on the purse of the benevolent individual, are each year assuming greater proportions. There is, in addition, an ever-widening belief, and, in consequence, an increasing pressure on the public authorities, that for the general good more still has to be done in dealing with the problem of the mental defective. In difficult times, such as the one we are now passing through, the question of family relief and the proper responsibility for its care is assuming a new importance.

All such questions are giving increasing thought and anxiety to those interested in the welfare of the various communities, and emphasize the necessity for seeking an intelligent plan to deal with them.

The State of Minnesota, for over 30 years, has held annual conferences on its welfare work and every year has brought an increasing help to those engaged in social work. A representative statement of the welfare of the Province should give to this first Manitoba Conference on social work, a basis for the welfare of the province, and work out practical methods for dealing with some of the immediate difficulties.

To those desiring the detailed program of the conference, a request to the Secretary, C. S. Wolcott, of Winnipeg, Manitoba, will secure it.

Is Proving a Success

Canadian Cattle Exports To Britain Favorably Received

Ottawa, Ont.—The shipment of Canada's export cattle train to Old Country has apparently got away to a good start," commented H. S. Arkell, Dominion livestock commissioner, following receipt of a report on the initial shipment of Canadian beef cattle to Manchester, England.

"Our cattle have evidently met a very satisfactory reception despite the fact they arrived on the market during one of the hottest spells of weather England has experienced in 20 years," Mr. Arkell said. "Now that we have made such a good start, Canadian shippers should see to it that no inferior cattle are allowed to go overseas."

Saving To Dairy Farmer

Cream Exporters Now Have Inspection Free Of Charge

Ottawa, Ont.—As a measure of relief for dairy farmers producing milk and cream for export to the United States, Hon. Robert Weir, Minister of Agriculture, has issued instructions to the veterinary inspection staff that beginning September 22, inspections required under the United States Federal Import Milk Act to permit of milk or cream being shipped into the United States, shall be made free of charge.

This means a saving to the dairy farmer of from \$2 to \$5 or more for the official inspection of his premises, and herd.

Evolves White Tomato

Vancouver, B.C.—A returned soldier farmer at Chilliwack, after years of experimenting, has produced a white tomato. This most unusual variety is non-acid and has been cultivated especially for sufferers from diabetes.

SPIRITED REPLY TO CRITICISMS OF WHEAT POOL

Saskatoon, Sask.—The individual farmer in Saskatchewan is harder pressed financially today than he was in 1923, when the Wheat Pool was organized and depression was world-wide, in the opinion of H. S. Fry, of Regina, publicity director of the Saskatchewan Wheat Pool.

Commenting on the Winnipeg news despatch which said that reports had been circulated to various exchanges that the Pool was facing financial disaster, Mr. Fry said that was "only an exaggerated example of what has been going on particularly during the past three months."

Opponents of organized marketing on the part of farmers, he said, considered the present an opportune time to try to shake the faith of farmers in their marketing organization. The attempt would fail, he was convinced. The Pool was handling a larger percentage of the crop than last year.

Whatever happens, farmers will not go back to a system which the great majority of them have abandoned because of its failure to give due consideration to the producer as a primary factor.

The spreading of maliciously faked reports such as the one circulated recently the director termed "as traitorous to the national welfare and the welfare of agriculture in Western Canada, as it is well-defined psychologically."

"I can only repeat," said Mr. Fry, "what has already been said from so many official quarters, that there is absolutely no foundation whatever for this malicious story."

"This is a matter which, of course, directly affects the business of the central selling agency, but attacks such as this, made under cover and designed to mislead the power of the press, are not unheard of in our experience. In the past, they have been primarily at breaking down the morale of the membership of the provincial pools, on the basis of which the C.S.A. operates."

Many factors combined to create the farmers' serious financial condition, Mr. Fry believed, among these low prices, short crop, obligations to creditors accumulated during years of higher prices, and the general world-wide depression.

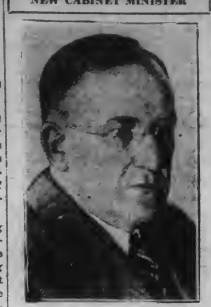

"This unusual combination of circumstances is being used by the opponents of the Pool to injure the Pool through any means short of direct libel," he said, "and the incident is only an aggravated example of what has been going on in a lesser way continually and in the last three months in particular."

"All these efforts to undermine organized marketing in this province are foredoomed to certain failure. Farmers may well be disappointed at the present low level of prices. Cash wheat has dropped nearly 50 cents on the Winnipeg market since the beginning of the present crop year."

Seeking Cause Of Depression

Geneva, Switzerland.—Susan Lawrence, labor chairman and publicity secretary to the ministry of health in the MacDonald cabinet, in the name of the British Government urged the League of Nations assembly to institute a world-wide scientific inquiry into the human and mental causes of economic depression reported by virtually all countries on the globe.

NEW CABINET MINISTER

Hon. W. A. Gordon, Minister of Immigration and Colonization, Ottawa, Canada.

'Plane Makes Speedy Trip

Six Hours For Flight From Oklahoma To Winnipeg

Winnipeg, Man.—Nine hundred and thirty miles in 385 minutes—almost 2.5 miles a minute—that is the record made by Daniel J. Moran, president of the Continental Oil Company and four companions, including W. M. Harrison, managing editor of the Daily Oklahoma and former editor of the Winnipeg Tribune, in the fastest trip ever made by humans from Oklahoma City to Winnipeg.

Mr. Moran had a date in Winnipeg with Governor Sales of the Hudson's Bay Company, and he started from the southern city with a forty-mile wind trying to push his tail all the way through. He left there in the morning and had lunch in Winnipeg and was smilingly shaking hands with Governor Sales nearly 1,000 miles from his starting point in the afternoon. He used his own trim-motored custom-built Ford monoplane.

Relief Work Started

Unemployed Mine Workers Of Nova Scotia Will Receive Help

Halifax, N.S.—Distribution of relief to mine workers and their families in the various colliery districts of Nova Scotia affected by unemployment will be started immediately, the cost to be borne by the Federal and Provincial Governments and the municipalities in communities concerned. This statement was made by P. W. Morrison, president of the United Mine Workers, district 26, and mayor of Glace Bay, following a conference with Hon. Percy C. Mack, acting premier of Nova Scotia.

Illicit Narcotics Traffic

League Of Nations Told That Canada Is One Of The Victims

Geneva, Switzerland.—Mrs. Mary Irene Paribry, of Alberta, told the social questions committee of the League of Nations that Canada is one of the "victims" of the illicit traffic in narcotics.

She said the situation was improving, however, owing to the arrest of many takers part in the traffic. Thorough control of narcotics entering Canada had also aided in decreasing the quantities illegally brought in.

Civil War Veteran Dies

South Bend, Ind.—The 21st Indiana Battery with its bright Civil War record today is only a memory. Its last surviving member, Charles A. Lawson, 89, was buried here recently.

BISHOP-ELECT GOES TO NEW DIOCESE

His Lordship J. Rodrigue Villeneuve, bishop-elect of Gravelbourg, Saskatchewan, by order of the high Roman Catholic dignitaries, passed through Winnipeg recently en route to Gravelbourg in the Canadian Pacific private car. This photograph was taken upon their arrival at Winnipeg where they stayed a short time. From left to right: Bishop Guy, O.M.I., Archbishop Forbes, of Ottawa, Bishop J. Rodrigue Villeneuve and Bishop J. Prigmore, of the diocese of Prince Albert-Saskatoon.

See Trade Revival

Bankers Predict Permanent Improvement In Volume Of Business

Victoria, B.C.—"We have reached the bottom and are at the turn," Sir Robert Holt, president of the Royal Bank of Canada, said here recently in commenting on conditions in Canada.

"There is no stringency of money in the country," commented Sir Charles Gordon, president of the Bank of Montreal, another Canadian banker visiting here. "The trade of the country has suffered a setback due in some measure to the low price of commodities, but there is a better feeling now," Sir Charles added.

"The revival is coming, but it will be gradual," he continued. There is plenty of money in the country for the business being done and we are always ready to advance loans for legitimate commercial enterprise."

This year's crop which has been estimated at four hundred million bushels, is better than had been expected, Sir Charles commented. "There should be a permanent improvement in the volume of business done by the manufacturers of the country," he said when questioned concerning the new tariff.

OUTCRY AGAINST THE DUMPING OF RUSSIAN WHEAT

London, England.—Wheat will play possibly a dominant part at the Imperial Conference discussions. The dumping of Russian wheat produced under conditions of semi-serfdom, has raised an outcry not only in rural England but across the agrarian states of Europe.

It has given the movement for wider Empire preference discussions such as no more ancient discussions could possibly have done.

Nevertheless there are strong doubts as to whether the present Labor government would be prepared to impose a duty on foreign wheat. The "Free Traders" and the "Free Fooders" such as Rt. Hon. Philip Snowden, Chancellor of the Exchequer, and Rt. Hon. William Graham, president of the Board of Trade, are much at the economic helm at Downing Street.

The Rt. Hon. J. H. Thomas, Secretary of State for the Dominions, has a counter scheme which would accord preferences by way of bulk state purchases. But although Mr. Thomas has not yet divulged the details of his plan it is meeting strenuous criticism on the ground that it will increase the price of food.

The Daily Herald, Labor organ, dismisses the outcry against the dumping of Russian wheat as a political stunt.

In regard to the conference on Dominion legislation, whose report comes up for consideration at the Imperial Conference, the Manchester Guardian remarks that its findings, as a whole, will doubtless be adopted without much difficulty.

"The right of the British Government to disallow or reserve Dominion legislation has become purely theoretical and the recommendation that it should finally be abolished is not likely to be disputed," says the Guardian.

"It is well, however, to recognize that this means that minorities such as the Southern Loyalists in Ireland and the native groups actually within the Union of South Africa, can no longer, even in theory, look to Britain for protection."

"That Dominion legislation should have extra-territorial validity is also a necessary and desirable result of equality. Difficult questions arise, such as the uniformity of merchant shipping legislation within the Empire, but this will be of the greatest value."

"If a dominion which now has no mercantile marine asserts its desire to fly its own flag to the exclusion of one which marks it as a member of the British Commonwealth, there will be no thunder from Whitehall to deny its right to do so."

The Guardian believes, however, that if the test actually came, the practical convenience of flying a flag which the British navy would recognize and protect would likely weigh heavily against the pleasure of asserting unimpeded independence.

Regarding the much-discussed abolition of dominion appeals to the judicial committee of the Privy Council, the Guardian remarks that those who are alarmed to hear talk of modifying the tribunal's functions may be comforted by the fact that the need for some final imperial court is recognized even by those dominions which have taken the most pleasure in flouting the authority of the present one.

CAREFUL CHECK WILL BE KEPT ON IMPORTERS

Ottawa, Ont.—Careful checks on the transactions made by Canadian importers under the section of the new tariff which permits bona fide contracts for goods to escape the higher duties until Nov. 30, will be made by the Department of National Revenue, it was announced by Hon. E. B. Ryckman, the minister in charge. Under regulations issued recently, the department will demand from the importer a copy of the original purchase order attested to by affidavit and, in addition, proof of acceptance prior to September 16, last, of the order of the exporter.

The new tariff bill was amended in parliament by Premier B. Bennett so as to permit importers to bring into the country under the old rates until November 30, goods which had been on order prior to September 16. The new regulations will attempt to prevent fraud in this connection. Heavy penalties have been set forth for infractions of the new regulations which include seizure and forfeiture of the goods or a fine equal to the value of the goods and further prosecution in the courts.

The regulations are aimed at unscrupulous importers falsifying dates of purchase and antedating orders. Mr. Ryckman said when announcing the rulings. Fear that the full benefit of the recent tariff changes might be lost through such action had been expressed to him by Canadian producers. The view had been placed before him, he added, that such a large quantity of goods might be brought into the country that Canadian production might be hampered, thus defeating the goal of the tariff changes that of relieving unemployment in this country.

The regulations, prescribing proof of bona fide purchase by contract prior to September 16, require the following: Copy of original purchasing order attested to by affidavit of importer and acceptance thereof by the exporter prior to September 16. It was stated further: "Such purchase order will be accepted as bona fide which does not specify definite quantity or quantities with definite price or prices and provide for delivery in Canada on or before November 30, 1930."

The regulations, prescribing proof of bona fide purchase by contract prior to September 16, require the following: Copy of original purchasing order attested to by affidavit of importer and acceptance thereof by the exporter prior to September 16. NOTES AND COMMENTS

The bituminous coal industry in Alberta in 1928 and 1929 showed an output valued at nearly 47 millions of dollars. This represents big business, not only for the coal industry, but for those whom the coal industry and all who are dependent on it buy from. Had Winnipeg and Manitoba generally bought its steam coal from Alberta during those two years, the total would have shown millions more. It would have meant more wages for Canadian miners and workmen in all lines of industry in Canada.

It is difficult to understand why G. G. Coote, Federal member for this district, did not vote in favor of a subvention on Alberta coal. The Government has found it necessary to vote 20 millions of dollars to provide work for unemployment relief. Possibly Manitoba sent that amount of money into the United States for coal in one year. Had this money been distributed among Canadian workmen, unemployment problems would have been lessened very considerably. When the miners of the Crows Nest Pass endorsed the candidature of Mr. Coote, they certainly did not contemplate an adverse vote on any measure which would favor industrial development in this section of Alberta. An explanation would certainly be enlightening.

Those who have qualms about declining use of coal need have no fear that other fuels will replace it. It is a basic necessity of industry, and in addition there are many by-products which can be profitably extracted from coal. Necessity will devise more economical methods of generating power and heat from coal, and though it faces keen competition, its use will continue in large measure. Every industry has its "ups and downs." So has wheat! Don't the farmers know it!

Last Saturday wheat sold in Lethbridge for 49c a bushel. Not since before the war has it sold for so little. It would be well to prepare tightening our belts, if they will stand it. The darkest hour is before the dawn.

There is efficiency of kinds. Offices particularly are the special study of efficiency experts. Some need pepping up, but this can be carried to extremes. In one large office efficiency was carried to such a point that it defeated its object. Time taken in seeing that the efficiency rules were faithfully observed did not effect the economies that were predicted.

Efficiency experts usually overlook the human equation. They base their calculations on the assumption that individuals will work like machines, turn out so much a day regardless of their physical condition. The result is that instead of harmony prevailing, workers are under a strain and the system does not run as smoothly as if there were more of the milk of human kindness injected into the hearts and minds of the workers.

Life is but a brief span. Individual effort in a world-wide sense counts about as much in a generation as do the efforts of the ant on its hill. As there will be plenty of people after this generation passes away, and even as at present thousands are crying for employment, one comes to the conclusion that so-called efficiency experts are just aggravating the situation, and the only people who benefit from their efforts to get more work at less cost are themselves.

A greater observance of the golden rule in every walk in life would make the world much more pleasant and there would be more even distribution of labor.

A manufacturer tries to cut his costs to undersell his competitor. He tries to cut wages very often as a first thrust. The competitor follows suit, and very soon the workers find they have not sufficient to pay their way. The vicious circle of such a policy needs no further illustration. It brings poverty, caused by greed. And poorly paid people certainly cannot buy the goods that others may wish to sell them. There is indeed much to be learned by so-called captains of industry.

Bobbie Burns, the Scottish poet, with all his human frailties, will be remembered for generations after his famous and wealthy countryman, Andrew Carnegie, has been forgotten. There is a lesson in that. It isn't wealth that counts—it is the heart and mind of a man, which determines how he will be regarded by posterity.

The oil company of which A. M. Morrison of Coleman is president, has been fortunate. Inland Petroleum Limited is financed by several business men of the Crows Nest Pass. Two wells have been drilled in Red Coulee district, and both are producers. Fortune certainly favored this group of men who took a chance and doubtless they will later reap the reward.

Here and There

(617)

One of the biggest game bags ever to be taken out of the Canadian Rockies has fallen to the gun of Angus Hodgson, of Montreal, who has been hunting in the Kootenay Valley. It includes two deer, two Rocky Mountain goats, one moose, one elk, and one black bear. At the end of his trip he spent six days tracking a monster grizzly and with one big horn ram he would have had the limit of every animal possible to get which the law allows him.

Comprising the largest one-day movement of apples out of British Columbia this season, the Canadian Pacific Railway recently operated four special freight trains over the mountains, making a shipment of 113 carloads of McIntosh Reds to the Prairie Provinces and as far east as Kenora.

Hiding moose across New Brunswick lakes and rivers is beginning to rate as the coming new craze, says Major McGeachan, noted New York sport and magazine writer, who has been spending a Fall outing in the Miramichi and Cain's River districts. Up to the present the moose ridden have been cow moose but Rev. Thomas Travis, of Montclair, N.J., appears to be the first who has ridden a bull moose which was done in the Key Hole of Grand Lake, about 35 miles from Fredericton. Now other sportsmen are taking up the pastime until it begins to look as though sportsmen in New Brunswick will be getting the habit of crossing lakes and rivers on mooseback.

Officials of the World's Grain Exhibition and Conference to be held at Regina July 25 to August 6, 1932, report that farmers in the States of Missouri and Kansas are keenly interested. Entries of both oats and corn from these states are to be expected at the Exhibition. Over \$200,000 is to be offered in cash prizes and in some classes as many as fifty prizes will be awarded. First prize for wheat will be \$2,500 and first prize for corn, \$1,500.

Flag poles are found at their best and highest in British Columbia. Recently one was sent via the Panama Canal all the way by water, to the Toronto National Exhibition. It was 177 feet high, 31 inches in diameter at the base and 9 1/2 inches at the top. This young giant was 236 years old. The daddy of them all is at the famous Kew Gardens, London, England, and is 241 feet high.

This year's crop of grapes in the Niagara fruit peninsula between Hamilton and Niagara Falls, Ont., is expected to reach about 58,000, 600 pounds, an increase of 15 per cent. over the 1929 crop.

Motor tourist travel from the United States to New Brunswick has been 50 per cent. greater this year than in 1929, according to statistics covering the season up to August 31, compiled by the provincial government from official returns gathered at the 25 ports of entry along the international boundary. The number was 355,581. Normal increase each year has been 25 per cent. and the great difference this year is attributed to wider advertising by the provincial government.

TEMPTING ORDERS

(By G. F. Bouchat)

A very intimate friend engaged in the manufacture of storage batteries here in the west granted me the privilege of going through his factory about three years ago. The time he was so kind as to spend with me during this visit was certainly appreciated and I must admit proved very enlightening.

It was with an attitude of pride that he displayed an order for 25,000 automobile batteries received only a few days prior to my visit, from a wealthy mail order house.

Having often wondered how it was possible for mail order houses to sell storage batteries at the prices they did, it was only natural that my curiosity should be aroused to its highest pitch.

Immediately taking advantage of the situation, I bombarded him with a multiplicity of questions and soon learned, not at all to my surprise, that these batteries were being constructed to conform with certain specifications.

The rubber cases were being manufactured under a special trade name. A reduction in weight (outwardly not perceptible) was being made. A reduction in weight that permitted them to reduce the cost from \$1.04 each to 68 cents, or approximately 71 per cent on this part alone.

As a camouflage fairly thick positive and negative plates were being utilized, but the surface area of the plates was reduced considerably. This of course meant a reduction in the quantity of sponge lead, antimony and other ingredients used in these plates.

Second grade Port Orford cedar separators were being used. Reduction in the size of connecting straps and terminal posts was likewise being made. For the entire interior construction of the battery they were being charged \$3.65.

Though it is customary that high quality storage batteries be given a

triple-cycle charge before leaving the factory, this firm was content to accept a single-cycle charge, for which they were being charged 30 cents. As their advertising campaign was launched in the Spring of the year, they could get by with a single original charge. They were also paying 30 cents for a crate or shipping box. The total cost of the battery was therefore only \$4.93.

These batteries were placed on the market at a price very near the ten dollar mark.

When I brought up the question of guarantee, I was promptly informed that they as manufacturers were not standing behind these special batteries, as they were very much inferior to their standard make. In view of the exorbitant profit this mail order house was realizing, however, they could well afford to bear the cost of replacements alone, without appealing to the manufacturers.

As a matter of fact, before swinging their campaign, this mail order house anticipated 30 per cent return on their entire shipments as defective. The salvage they could obtain from these returns would be more than sufficient to pay for the transportation charges on the replacements. And think what good follows they could make of themselves by replacing defectives without an argument as to the soundness of the complaint.

Even with this anticipated loss confronting them, they realized a net profit of 68 per cent on these batteries which were disposed of with no more sales resistance than hot dogs at a country fair.

What a contrast between this profit and the 23 per cent your local battery dealer makes on batteries of superior quality out of which he must absorb transportation charges, crating costs, draying rent, taxes, etc.

It is therefore evident that when your local battery dealers quote you a price on a storage battery or other accessory that is higher than some you have seen in mail order catalogues that it might be well to remember they are not profiteering.

It is over ten years since the war profiteering days stepped back, or rather were forced to take a back seat for our present day of tight-rope walking in business.

Ever narrowing profits—ever growing costs—and between them a thin red line. Safety lies only in the most skillful balancing of every price set on merchandise offered for sale. It is this thin red line of profits that your local merchants are walking on.

Help them keep their balance and indirectly you will also come out on top.

WORLD HAPPENINGS BRIEFLY TOLD

Canada has twelve factories for the manufacture of macaroni and the annual production has a value of about a million and a half dollars, according to the latest figures from Ottawa.

Premier James H. Scullin, of Australia, making his first appearance before the League of Nations Assembly, denounced armaments as a menace to peace and urged the League to call a general disarmament conference.

A cable received by the Child Welfare, Inc., New York, from its administrative committee in China, said 5,000 children are dying as a result of famine and a half dollars, according to the latest figures from Ottawa.

The committee which will administer the War Veterans' Allowance Act, was appointed by the late Federal Government, and its personnel is now preparing for the operation and administration of the act.

The superannuation of E. R. Cameron, K.C., as registrar of the Supreme Court of Canada, was announced at the Prime Minister's office at Ottawa. He is succeeded by James F. Snell, K.C., a lawyer of Ottawa.

Portage la Prairie, Man., known for its No. 1 hard wheat, has added new laurels to its brow. On the farm of J. Prout, one mile from the town, peanuts and almonds have been produced this season. He grew two sacks of peanuts and a few handfuls of almonds.

James C. Brady, former Conservative member of parliament for Skeena, B.C., has been appointed a census commissioner of the demography branch of the Dominion Bureau of Statistics. Mr. Brady will organize the census of institutions such as hospitals, asylums, penitentiaries, and house of refuge all over Canada.

New Market In Egypt

Trid Shipment Of Apples Being Made From Okanagan Valley

A new market for British Columbia apples in Egypt is being opened up by a trial shipment there, under arrangements completed by the provincial department of agriculture.

This shipment will consist of 2,000 cases from the Okanagan Valley at a price to net the growers a profit which would be small in a domestic market but satisfactory in an export market. The agricultural department believes that Egypt will offer a large market for British Columbia fruit in the future and is anxious to cultivate this business. A few apples from this country have found their way into Egypt before, but the market has never been built up in a big way.

Scenic Automobile Route

Endorse Lake Superior Route For Trans-Canada Highway Through Northern Ontario

At a meeting of representatives of the Port Arthur and Port William city councils and chambers of commerce, held in Port Arthur, and dressed by John Ling and R. C. Gibson, delegates from Sault Ste. Marie, a resolution was adopted, approving of the Lake Superior route for the proposed Trans-Canada highway through northern Ontario.

The meeting was unanimous and accepted the view that while the cost per mile of construction might be slightly higher, the aggregate cost, because of saving in distance, would be considerably less than for the proposed alternative routes further to the north, and felt also that it would open up a scenic route second to none on the continent.

It was further believed that with a time saving of one day over any other possible route for those tourists as would make the circuit, it would be a much greater attraction for visitors from the south.

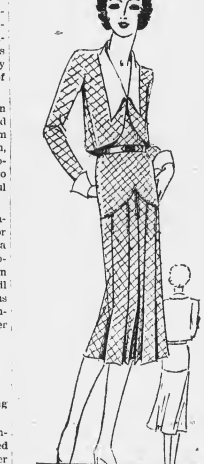

In order to get action on the matter, the Port William Chamber of Commerce some time ago adopted resolution, approving a compromise route which would touch Chapleau and Oba, considerably to the north and adding 145 miles to the 475 miles between Port Arthur and the Soo.

Representatives present at the meeting said the Port William Chamber of Commerce would almost certainly be willing to reconsider the matter and join Port Arthur and the Soo in urging the all-lake shore route.

COLLEGE DAYS

All Tingey models are created and sketched in Paris and the patterns are made in New York.

Are you needing a cute little dress for return to class, or may be your first venture into the world of business? Here's a darling style, so fresh and chic!

Neath the vee bodice jacket, the dress is held by simple shoulder straps.

One of the new season's closely woven jersey tweeds would be lovely for this model—the collar and cuffs are of plain or spotted crepe.

Plain or spotted crepe could also be used or almost any dress-weight woolen of the plain or dress-weight variety.

For afternoon wear, the model is charming developed in marocain, flanneau, or broadcloth, when naturally the collar and cuffs will be of finer type, perhaps lace or embroidery or contrasting silk or satin.

The belt is leather or suede. This pattern may be obtained in sizes 14 to 20 and 24 to 40. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

School For Fin Fin

Mining Town In Northern Manitoba Town To Have Public School

Efforts of the mining town of Fin Fin to have modern public school instruction this year have at last been successful, according to word received in The Pas. Equipment is now being installed in the class rooms, and it is expected that work will begin within ten days.

Financial plans are about complete. With grants from the province, the town, and with the aid of the Hudson Bay Mining and Smelting Co., grades up to eight will be taught this year.

It has been decided to engage Miss Doris M. Foster, of Winnipeg Beach, to teach the primary grades, and Miss Margaret Sutherland for grades three, four and five.

Find Early Coins

Interesting Discovery In Wabes Gold Coins Minted In 1340

Thirty golden nobles, in perfect condition and apparently fresh from the Mint where they were struck to celebrate the death of the French king, Edward III, at Sully, in 1340, were discovered recently on the edge of an ancient road leading from Tallies, Cardiganhire, to the Dovey Estuary, where a ferry in olden days carried travellers across to North Wales.

The coins depict an English warship breasting the waves and surmounted by the English coat-of-arms and the King's head.

Recipes For This Week

(By Betty Barclay)

BREAKFAST MUFFINS

- 2 cups special cake flour, sifted.
- 4 teaspoons baking powder.
- 1/2 teaspoon salt.
- 1 egg, well beaten.
- 3/4 cup milk.
- 4 tablespoons butter or other shortening, melted.

Sift flour once, measure, add baking powder and salt, and sift again. Combine egg and milk and add to flour, beating until smooth. Add shortening. Bake in greased muffin pans in hot oven (400 degrees Fahrenheit) 25 minutes. Makes 10 muffins.

BAKED FISH

- 1 average helping filleted flounder, fresh haddock or whiting
- 2 tablespoons butter.
- Salt and pepper.
- 1 lemon.

Grease a plate and lay the fish on it with the skin side upwards. Put in the oven five minutes and the skin can be easily removed. Moisten with a flat pan, lay fish on it and place in hot oven 400 degrees Fahrenheit, eight to ten minutes. Baste twice while baking. Remove sauce and squeeze lemon juice over. Serve hot.

Tour To The Orient

Business Men To Sail On Chamber Of Commerce Tour To Japan and China

Several business men of Edmonton and Calgary have already signified their intention of joining the Canadian Chamber of Commerce tour to the Orient, which sails from Vancouver on the "Empress of Asia" on October 16th. The tour will include a visit to Japan and reception by the Japanese Government, and trips to Shanghai, Nanking, Hong Kong and Canton, and the members will be back before Christmas. The tour is not limited to members of Chambers of Commerce and Boards of Trade, but is open to the general public as well.

In many parts of Africa there is a tree which bears large seeds resembling huge sausages.

A Shaving Lotion

When mixed with sweet oil, Minard's serves as an after-shave shaving lotion and soothes, soothes and freshens the skin.

MINARD'S "KING OF PAIN" LINIMENT

Wins First Prize For Layer Cake

McKenzie, 9 Fernwood Park Ave., Toronto, to whom was awarded the first prize for layer cake, at the Canadian National Exhibition, Toronto.

There were a large number of entries of cakes of various kinds and Mrs. McKenzie not only won first prize for iced layer cake, but also for muffins and small cakes. We give below the recipe used by Mrs. McKenzie for the prize-winning cake.

Golden Layer Cake: 1/2 cup butter; 1 cup sugar; yolks of 6 eggs; 3/4 cup milk; 1 1/2 cups flour; 4 teaspoonsful of orange extract. Cream butter and sugar, add well beaten yolks and again with butter and sugar until very light. Sift flour and Magic Baking Powder together and add to first mixture alternately with milk. Beat lightly for about one minute, put into greased layer pans and bake. Temperature 400 degrees Fahrenheit. Bake about 20 minutes. Put together with lemon filling and ice with boiled frosting.

Lemon Filling: 1 lemon and rind; 1 cup cold water; 1 cup sugar; 1 egg; 1 tablespoonful flour. Beat lemon rind and egg together. Stir in lemon juice and sugar. Dissolve flour in water. Cook in double boiler till it gellies and spreads.

Boiled Frosting: Dissolve a cup of granulated sugar in 1/2 cup of hot water. Wash down the sugar from the sides of the pan, cover and let boil three or four minutes, uncover and let boil to a rather firm soft ball stage. Pour in a fine stream on the whites of 2 eggs, beaten dry, beating constantly meanwhile. A few Marshmallows chopped and added to the frosting gives a delicious and pleasing flavor.

Alberta Dairy Record

Last Year 55 Creameries Produced Sixteen Million Pounds Of Butter

The dairy record of the Province of Alberta is an encouraging one. In 1912 the province had only 53 creameries producing a little over 3,000,000 pounds of butter. Last year there were 55 creameries with an output of 16,000,000 pounds. In 1912 six cheese factories produced but 40,000 pounds of cheese, while last year ten factories produced over a million pounds.

In days of yore if anybody missed a stage coach he was contented to wait two or three days for the next one. Now he lets on a squeak if he misses one section of a revolving door.

How One Woman Lost 47 Pounds Of Fat

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides."

"Now I am glad to say I am a well rounded girl, much stronger, younger and my weight is 170 pounds. I do not only feel better but I look better. I feel much better."

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that it is in it."—Mrs. S. A. Solomon.

Canned Chicken

New Business Is Likely To Develop Into Large Proportions

In his annual report recently published the Veterinary Director General of the Dominion Department of Agriculture calls attention to the increase in the number of poultry products processed under government inspection. The packing trade are canning more meats and poultry in Canada, and there appears to be room for considerable development in the field of canned chicken. Canned whole chicken made its appearance on the market last year and from the reception accorded it the new business is likely to develop into one of considerable proportions.

Strength Of Canadian Woods

A comparison of strength values of wood of sugar maple and yellow birch show that sugar maple is considerably the stronger in the green condition, whereas, after seasoning, they are of approximately the same strength. This is revealed through publication of results of the physical and mechanical properties of Canadian woods by the Forest Products Laboratories of Canada, Department of the Interior.

There is a Manchester section who believes in accuracy, as witness this entry: "Died—, male, aged three months; unmarried." Which leaves no possible doubt.

Rheumatism?

Quick relief from rheumatic pains without harm:

To relieve the worst rheumatic pain is a very simple matter. Aspirin will do it every time. It's something that you can always take. Genuine Aspirin tablets are harmless. Look for the Bayer Cross on each tablet.

SUNDAY SCHOOL LESSON

OCTOBER 5

ZACHARIAS AND ELISABETH — Life In A Pious Jewish Home

Golden Text: "And they were both righteous before God, walking in all the commandments and ordinances of the Lord blameless."—Luke 1:6.

Lesson: Luke 1:5-8.

Devotional Reading: Psalm 122.

explanations and Comments

A Righteous Couple, verses 5, 6.—In the days of Herod, King of Judea (Herod the Great, who reigned from 37 to 4 B.C.), there lived a pious man Zacharias, of the course, or group of Abijah. David divided the priests into twenty-four courses, each of which in rotation was responsible for the temple services for a week. Each course, therefore, officiated twice a year, at an interval of six months. After the captivity the four courses returned, but these were subdivided into twenty-four courses under the same manner. The course of Abijah is said to officiated in April and October. The wife of Zacharias, who was a descendant of Aaron, was called Elisabeth. Their home was in the hill country south of Jerusalem.

Both were righteous before God. The strict Jews who observed the Mosaic law, kept all the commandments and ordinances, and were not faultless, but blameless according to the Old Testament standards.

The Birth and Naming Of John verses 57-66.—When Elisabeth's son was born, all her neighbors and relations rejoiced with her. "There is nothing else in the world so important as children, nothing else so influential."—David Starr Jordan. Those present at the circumcision of the child when he was eight days old, wished to name him Zacharias after his father, but Elisabeth said, "Not so, but he shall be called John." See verse 58.

"John" means "the grace of God." "There is none of thy kindred that is called by this name," they said in astonishment, and turning to the father, they asked him, "What name should he be called?" "The name that he should be, making use of signs, for he seems to be supposed as well as dumb." (Verses 18-20.)

"Five words cost Zacharias forty years silence."—Thomas Fuller. "Various suggestions have been made to evade the conclusion that he was dumb; that men are very apt to treat a dumb person as if he were also deaf; that they communicated by signs instead of by speech to spare the feeling of Elisabeth, whose judgment was being appealed from; that a sign was given that he was dumb."

Zacharias having heard all that was said.—Expositors' Greek Testament. Zacharias called for a writing tablet, a tablet covered with wax, and upon it he wrote with a stylus. "His name is John."

Then Zacharias burst forth into speech, blessing God. The people were much impressed by his recovery of speech and by the unexpected name given the babe, and they perceived that some great future was before the child. "What, in view of these things, shall this child be?" they asked. "For the hand of the Lord was with him," the Evangelist comments.

Pure Bred Sire Areas

Twenty-eight rural municipalities in the Province of Saskatchewan have been established as pure-bred sire areas, which means that these areas have become entirely free of scrub sires.

Calculating machines, similar to those used for tabulating census returns, are being used in the British Columbia statistical office to compute daily positions of the moon until the year 2000.

Personal and Local

Capt. Gresham, of Blairmore, well known in the Pass towns, has been awarded the long service medal of the Colonial Auxiliary Forces. He has 38 years of military service to his credit, and at present holds a captaincy in the Alberta Mounted Rifles.

Alex. Reezgo and August Lasurik appeared before Magistrate Gresham on Wednesday charged with creating a disturbance in a public place. They were each fined \$5.00 and costs, and bound over under a bond of \$100 each to keep the peace for twelve months.

Miss Phyllis Shone left this week to commence training in Calgary general hospital. Her mother accompanied her to Calgary, returning on Wednesday afternoon. Her many friends among the high school girls will wish her success in her chosen vocation.

Authority has been given the Winnipeg Hydro to purchase 30,000 tons of Alberta steam coal, representing the needs of the plant for two years. Two sets of specifications were set out, one calling for a supply with a minimum of 12,800 B.T.U.'s and the other for a minimum of 11,200 B.T.U.'s.

After living here for eight years, Mr. and Mrs. Olson and daughters Marie and Virginia will leave on Saturday to spend a year in Norway. Mr. Olson was section foreman here, and during the summer has been in charge of work trains on C.P.R. construction work in southwestern Saskatchewan. On Monday evening the Oddfellows and Rebekahs honored them by a social evening and presented a framed photograph of Crows Nest mountain. Their many friends join in wishing them a pleasant trip and enjoyable holiday overseas.

Examination Results, June 1930

(Continued from Page One)
Thus we have 85% of the group satisfactory or better.

In most of this analysis we have taken five or more units passed as an indication of "satisfactory or better" work. Some may prefer to take six or more units passed as the "satisfactory" mark, and the following table is worked out on that basis:-

Grading	Grade IX.	X.	XI.	XII
Excellent (8)	.11	.14	.20	.57
Very Good	.43	.30	.00	.14
Satisfactory	.29	.14	.27	.14
Unsatisfactory	.17	.42	.83	.15
Satisfactory or better	.53	.58	.47	.85

Summarizing the whole school on this basis we have two thirds of the students classed as satisfactory or better. This standard is rather high. The departmental test on a year's work lasts for three hours during which limited time the student must prove his grasp of every branch of the year's work. When we say that a student failing to pass at least six units out of seven has done an unsatisfactory year's work we are probably too severe in our judgment.

Returning to the earlier basis of comparison we have for the school as a whole:

Satisfactory or better....74%
Unsatisfactory.....26%
This section of the school report should not be concluded without my calling attention to the following:

Generalizations based on statistics are dangerous; they must be carefully made and critically examined. Statistics for small groups are particularly likely to be misleading. The report allows nothing for individual peculiarities or circumstances.

There are many types of 'ability' and the phrase "less than average ability" requires further definition and discussion.

CLASSIFIED ADVERTISEMENTS
